

# SPRAY WAX

## TECHNICAL DATA SHEET

**Description:** *Hydro Chem System's SPRAY WAX is a highly concentrated top quality liquid spray wax for self-service and automatic car and truck washes. Also used as a rinse aid to promote more spot-free drying.*

### Advantages:

- Clear coat safe.
- Breaks water quickly-the rapid beading action ensures maximum water removal from vehicle surface.
- Promotes spot-free drying. Hand drying is kept to an absolute minimum.
- Provides a visible high-gloss appearance and protective coating.
- Not a "cheater wax". Contains natural wax.
- Available in concentrate and ready-to-use dilutions.
- Biodegradable.
- Contains patented siliconized carnuba wax.

### Specifications:

Physical Form	Clear Liquid
Color:	Green
Biodegradable:	Yes

### Directions:

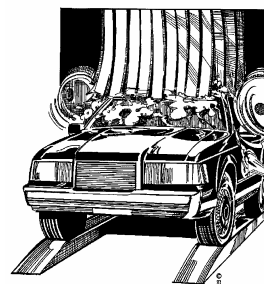

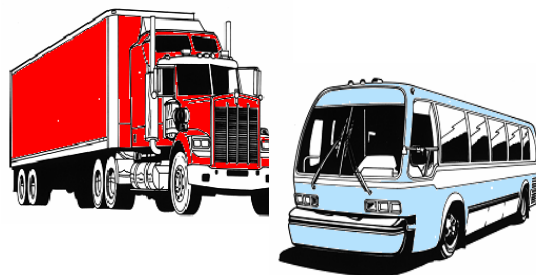

Dilute 5-gallons wax concentrate to 55-gallons of water. Feed 6 – 8 oz. of concentration into that volume of water used in your system to rinse vehicle, or use direct from factory container and adjust proportioner accordingly. For Hydro-Minder Proportioner, use yellow tip (104:1). Dilutions may vary depending on water conditions and type of equipment used.

**For pressure washer application:**  
Spray on high or low pressure, then fog rinse to remove excess wax.

### Caution:

This product contains natural wax. DO NOT allow to freeze. Freezing separation can occur at 32°F, which is also 0° C.

- ◆ **KEEP AWAY FROM CHILDREN.**
- ◆ **SEEK MEDICAL ATTENTION IF CONCENTRATE GOES ON YOUR SKIN.**
- ◆ **FOR INDUSTRIAL USE ONLY.**
- ◆ **THE PURCHASER OF THIS PRODUCT ASSUMES ALL RISKS AT ALL TIMES.**
