

BIO-SOLVE

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM'S BIO-SOLVE is a blend of citrus terpene and methyl soyate that produces an all natural cleaner/degreaser that will remove the heaviest greases, oils, tar and will also soften decal/sign glue residue for easy removal.*

Advantages:

- All natural, Biodegradable.
- Removal of heavy grease soils.
- Removal of tar and asphalt.
- Removal of decal/ glue residue.
- Removal of carbonize oil sprayers from engines, transmissions, motors, housing metal plates. Rinse or wipe dry.
- Excellent cleaner in waste treatment plants.
- Deodorizes as it cleans.
- Safe on most metals.
- Able to be flushed to sewer after soil release.
- Complies with EPA, OSHA environmental, safety and waste disposal regulatory standards.

Specifications:

Physical Form:	Bright yellow liquid
Odor:	Citrus
Solubility:	Can be diluted with water but will separate. Shake before using if separated.
Foam:	Low

Directions:

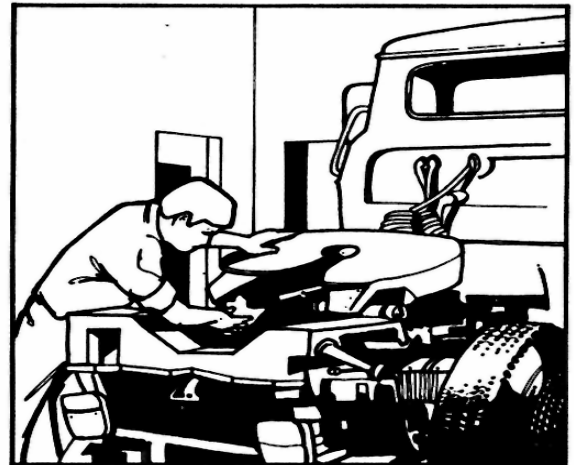

Apply Bio-Solve directly to area to be cleaned. Let dwell. Then wipe away soil or rinse with pressure washer.

AVAILABLE IN SUPER CONCENTRATE, CONCENTRATE, AND HEAVY-DUTY STRENGTHS.

Caution:

Bio-Solve is a natural solvent and may have an adverse effect on some types of hoses, o-rings, seals, and gaskets if allowed to stay in contact with it for an extended length of time.

- ◆ **KEEP AWAY FROM CHILDREN**
