

FREEZER FLOOR SPECIAL

TECHNICAL DATA SHEET

Description: *HYDRO-CHEM'S FREEZER FLOOR SPECIAL is a blend of methanol and surfactants that will clean freezer floors, walls, and equipment in sub-freezing temperatures to -40°F. Helps in melting ice formations.*

Advantages:

- Safe on concrete floors.
- Can be used with mop & buckets or automatic floor scrubbers.
- Can be diluted with water but it will raise the freeze temperature.
- Will not leave floors slippery.

Specifications:

Physical Form:	Blue colored liquid
Odor:	Methanol
Flash Point:	90°F
Solubility ;	Complete in Water

Directions:

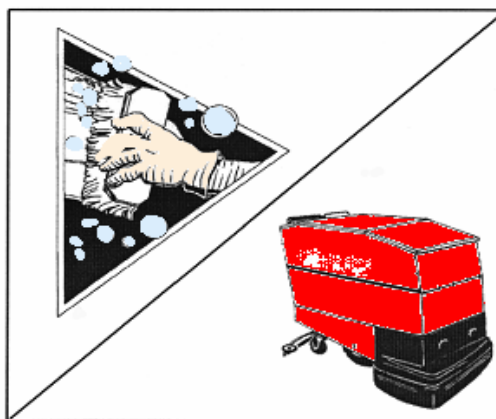

Made to be used as is for maximum sub-freezing cleaning. When mixed 1:1 with water, it will raise the minimum temperature to -20°F.

AVAILABLE IN VARIOUS CONCENTRATIONS.

Caution:

Flammable.
Keep away from flames or temperatures above 90°F.

- ◆ **KEEP AWAY FROM CHILDREN**
- ◆ **FOR INDUSTRIAL USE ONLY**
